

Offer for Media Partnership

Dear Sir / Madam:

From 24 to 28 June 2019 the **4th ESTAD 2019** conference will take place alongside the **METEC**, the leading international metallurgy trade fair. The 4th ESTAD (European Steel Technology and Application Days) is a multi-topic event organized by the Steel Institute VDEh in cooperation with the Austrian Society for Metallurgy and Materials, Jernkontoret (Sweden) and Associazione Italiana di Metallurgia. This is the leading European technical conference covering a wide range of topics of all steel production processes as well as steel materials and their various applications. The 2019 event takes place for the fourth time following the 1st ESTAD in Paris, 2nd ESTAD 2015 in Düsseldorf and 3rd ESTAD 2017 in Vienna.
